Full job description

Your new company

Top tier client based in Sydney is looking to acquire experienced plumbers with a good work ethic. They have a well-established reputation as they provide prestigious services within the rail plumbing industry.

Your new role

You will be working on the railway sites across Sydney's Western suburbs. The project predominantly consists of installing small bore (15-25mm) compressed air pipework within the metro rail tunnels, pipework is constructed using both press fit copper and stainless-steel tube. Also there is also some minor plant room fit offs which include installation of compressed air equipment and valving.

What you'll need to succeed

Must be a full qualified plumber who has extensive experience within the rail plumbing space. The right candidate must be able to work in a team or independently and must have an RIW ticket. For this role it is essential to have relevant hand tools and power tools, as well as PPE gear. Being a reliable worker with a good work ethic and an optimistic attitude will ensure success within this opportunity.

What you'll get in return
